

Recycling Reimagined

INTEGRATED TECHNOLOGY RECOVERY SERVICES

Life-Cycle Solutions

Programs to maximize economic yield & minimize environmental concerns.

ROUND2 is a national provider of integrated and customizable recycling services, offering vertically integrated solutions through global remarketing, electronics test and repair, product disassembly, and commodity recycling. **ROUND2** is keenly focused on environmentally responsible, closed-loop solutions and serves commercial, industrial, municipal, and governmental entities, as well as other regional recycling companies.

As of 2010, **ROUND2** has delivered IT Asset Disposition, Electronics Recycling, CRT Recycling and Certified Data Destruction to more than 500 clients.
